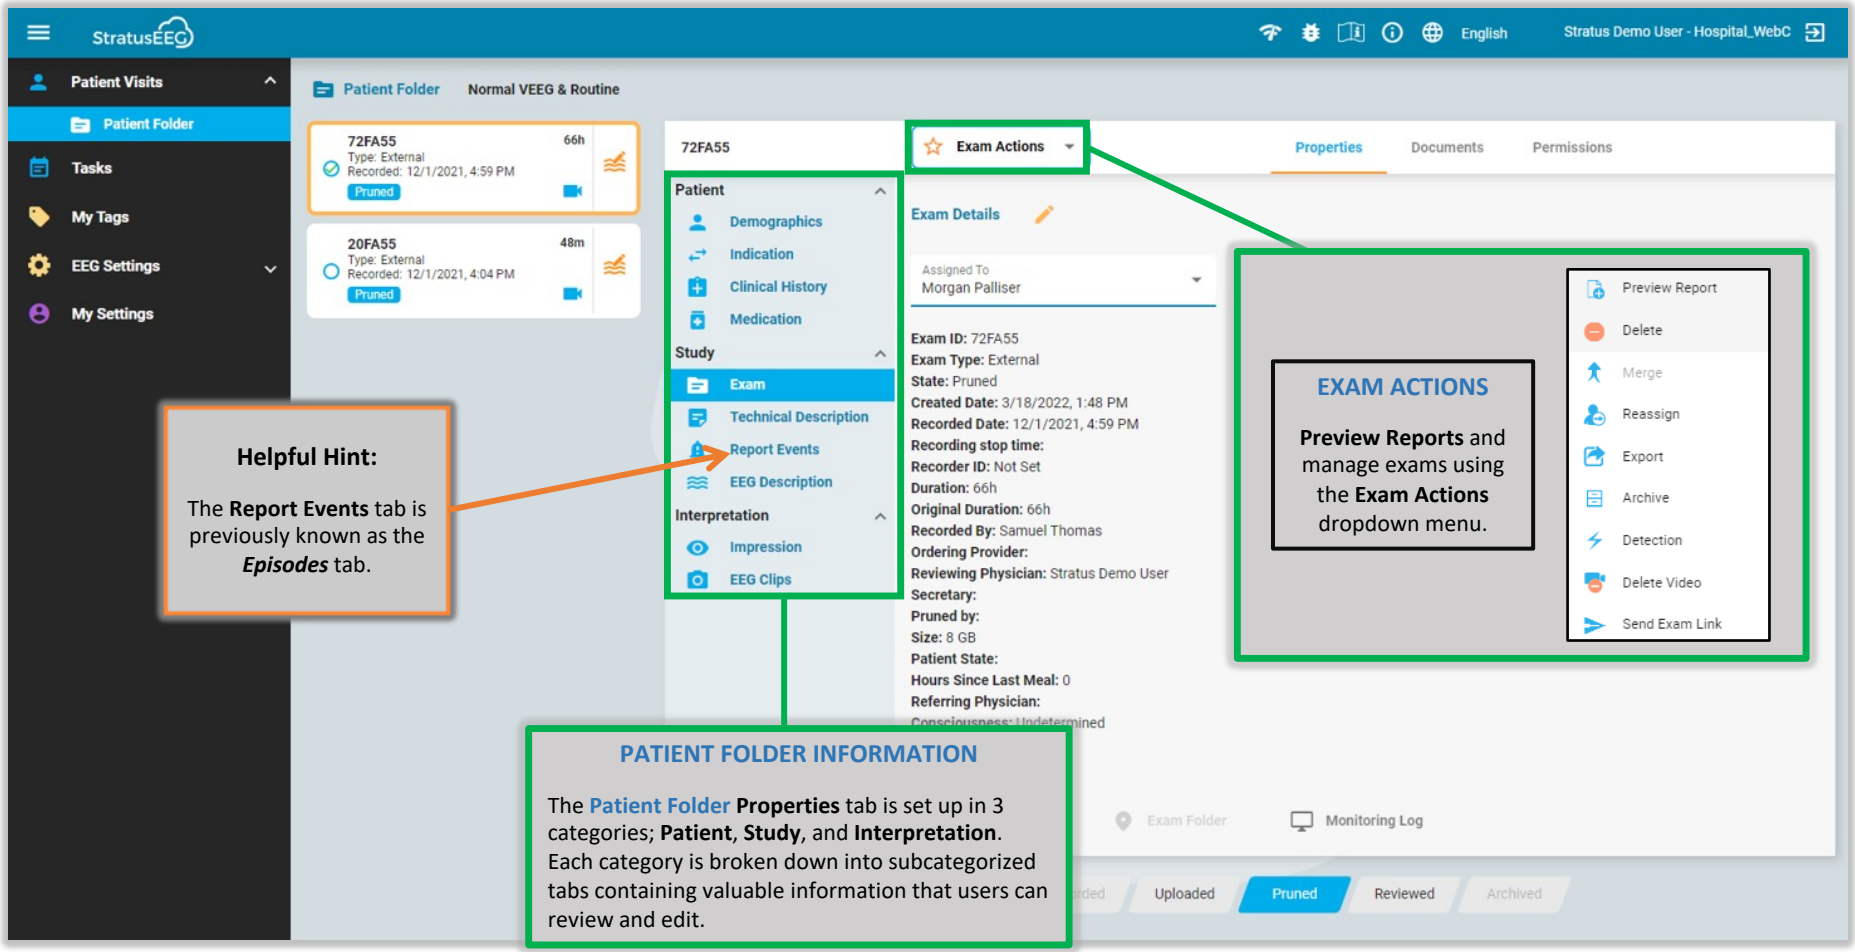
PATIENT FOLDER:

The Properties Tab Overview

The **Properties tab** is automatically selected when a patient folder is opened. The properties tab contains patient demographic information and information used to publish reports.



Helpful Hint:

The **Report Events** tab is previously known as the ***Episodes*** tab.

EXAM ACTIONS

Preview Reports and manage exams using the **Exam Actions** dropdown menu.

PATIENT FOLDER INFORMATION

The Patient Folder **Properties** tab is set up in 3 categories; **Patient**, **Study**, and **Interpretation**. Each category is broken down into subcategorized tabs containing valuable information that users can review and edit.
